Hein Htet Zaw

has successfully completed the online Specialization

AWS Certified Cloud Practitioner CLF-C02

Congratulations on completing the AWS Certified Cloud Practitioner CLF-C02 specialization! This specialization provides an in-depth exploration of AWS cloud services and essential cloud concepts, ensuring that learners are equipped to handle cloud infrastructure effectively. From learning about compute services like EC2 and Lambda to deploying storage solutions with S3 and EBS, this specialization walks you through every aspect of cloud management. You'll gain knowledge on cloud security, cost optimization, and best practices for using AWS services. Whether you're new to AWS or preparing for the Cloud Practitioner exam, this specialization is the perfect stepping stone to building your cloud expertise and enhancing your career.

Packt

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
